

Please note that as a result of the current environment, Journey Energy Inc. and Journey Energy Partnership is respectfully requesting that all formal notifications including anything of a material or non-material nature, including but not limited to, expiries, rental issues, offset notifications, notices to surrender/produce, potential royalty disputes affecting tenure, etc., be sent directly to mineralcontract@journeyenergy.ca. We appreciate your consideration for this request so that we are better able to respond within the timeframes in which to make a well informed decision as to those requests/notifications.

Please pass on to your mineral, contract and compliance groups. Thank you in advance for your time in helping the oil and gas community communicate effectively in these uncertain times. If you feel this is outside the bounds of any lease related or contractual arrangement, please contact me directly so we can work together to resolve issues going forward. My cell phone number is 403.809.2092. Please call if there are any concerns but I would also ask that you respond to this email regardless so there is certainty for Journey that these are parameters within which your company is willing to work.

Appreciate it and stay healthy...I will follow up with phone calls if I don't hear from you.

Kathryn Gagne
Supervisor, Contracts & Land Administration
