

March 20, 2020

To Our Partners and Friends,

As many of you have done to ensure continuity of business amid the ongoing state of emergency, NuVista's mineral land team has established an email address for the service of notice under a mineral land agreement or the receipt of general correspondence pertaining mineral land. We hope that this expedient will also provide our partners with a welcome alternative to physical delivery.

We therefore respectfully request that all mineral land notices be sent via email to our common inbox (Mineral.Land@nvaenergy.com) while our government is advising Albertans to practice social distancing.

NuVista will treat any mineral land notice sent to this inbox as having been validly served under its relevant agreement until these instructions have been revoked by public notice on the websites of the Canadian Association of Petroleum Landmen and the Canadian Association of Petroleum Land Administration.

We wish you all health and courage through these difficult times.

Sincerely,

NUVISTA ENERGY LTD.

John Wallace
Manager, Stakeholder Relations & Land Administration
